

MILAN RATHOD

 Junagadh, Gujarat, India  +91 9327599254  rathodmilan216@gmail.com
 LinkedIn: [linkedin.com/in/milan07](https://www.linkedin.com/in/milan07)  GitHub: github.com/Milan07xt

PROFESSIONAL SUMMARY

Python Developer and B.Sc. Information Technology graduate with hands-on experience in Python, Django, Django REST Framework (DRF), REST API Development, MySQL, SQLite3, PostgreSQL, Machine Learning, and Full-Stack Web Development. Skilled in developing scalable web applications, backend systems, authentication modules, database-driven solutions, and API integrations. Proficient in Git, GitHub, Linux, Object-Oriented Programming (OOP), Database Design, and Software Development Life Cycle (SDLC). Passionate about backend development, problem-solving, and delivering high-quality software solutions.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

 Noble University, Junagadh ( 2023 – 2026) -  CGPA: 6.35/10

Higher Secondary Education (12th Commerce)

 Gujarat Board -  78.41 PR

Secondary Education (SSC)

 Gujarat Board -  67.49 PR

TECHNICAL SKILLS

 **Programming Languages:** Python, JavaScript, SQL, HTML5, CSS3

 **Frameworks & Libraries:** Django, Django REST Framework (DRF), OpenCV, NumPy, Pandas, Matplotlib

 **Databases:** MySQL, SQLite3

 **Tools & Technologies:** Git, GitHub, REST APIs, Linux, Machine Learning, Data Analysis, Web Scraping, Generative AI

Core Concepts

Object-Oriented Programming (OOP), Database Design, Authentication & Authorization, API Integration, Django ORM, Software Development Life Cycle (SDLC), Data Structures, Problem Solving

PROJECTS

Face Recognition Attendance System

Technologies: Python, Django, OpenCV, REST API, PostgreSQL, Machine Learning

- Developed an AI-powered attendance automation system using facial recognition and image processing.
- Implemented real-time face detection, attendance tracking, and automated record management.
- Designed and integrated RESTful APIs for attendance management and reporting.
- Developed authentication and authorization modules for secure access.
- Built an admin dashboard for monitoring attendance records and analytics.
- Optimized database performance and backend processing workflows.

Gym Management System

Technologies: Python, Django, HTML, CSS, JavaScript, SQLite3

- Developed a full-stack web application for gym membership and payment management.
- Implemented secure user authentication and role-based access control.
- Managed memberships, plans, payments, and equipment records using relational databases.
- Optimized database operations using Django ORM and SQL queries.
- Improved system performance through efficient backend development practices.

Hotel Management System

Technologies: HTML, CSS, JavaScript

- Developed a responsive hotel management website with room booking functionality.
 - Implemented customer registration, authentication, and booking modules.
 - Designed interactive and user-friendly web interfaces.
 - Improved user experience through responsive design and optimized navigation.
-

CERTIFICATIONS

- Python Programming
 - Django Web Development
 - SQL Fundamentals
 - Git & GitHub
 - Generative AI Fundamentals
-

ACHIEVEMENTS

- Successfully developed and completed multiple software development projects using Python and Django.
 - Built AI-powered applications using OpenCV and Machine Learning techniques.
 - Implemented REST APIs, authentication systems, and database-driven applications.
 - Maintained source code repositories and version control using Git and GitHub.
 - Continuously learning Backend Development, Machine Learning, and Data Science technologies.
-

SOFT SKILLS

- Problem Solving
 - Analytical Thinking
 - Communication Skills
 - Team Collaboration
 - Leadership
 - Time Management
 - Adaptability
 - Continuous Learning
-

CAREER OBJECTIVE

Seeking a Python Developer, Django Developer, Backend Developer, or Software Developer role where I can apply my skills in Python, Django, REST APIs, SQL, PostgreSQL, and Backend Development to build scalable applications, contribute to innovative projects, and grow as a software professional.
